Senior Software Engineer at Incedo | DevOps & Cloud Engineer with 6+ years of hands-on experience designing and managing scalable infrastructure in Azure and AWS. Proficient in provisioning environments via Terraform, deploying microservices with Kubernetes and Helm, and establishing robust CI/CD pipelines for applications and data platforms using Azure DevOps and GitHub Actions. Solid foundation in cross-platform server administration (Linux/Windows) and automation using Bash and PowerShell.

Skills

Cloud Platforms & Data: Microsoft Azure, AWS

Infrastructure as Code (IaC): Terraform, ARM Templates

CI/CD & Version Control: Azure DevOps, GitHub Actions, Git/GitHub

Containers & Orchestration: Kubernetes, Docker, Helm

OS & Administration: Linux (Ubuntu, CentOS, RHEL), Windows Server, VMware

Configuration Management & Scripting: Bash, PowerShell

Identity & Security: Active Directory, Microsoft Entra ID (Azure AD)

Experience

OCTOBER 2024 - PRESENT

Senior Software Engineer | Incedo | Gurugram, Haryana

- Implemented end-to-end CI/CD pipelines utilizing GitHub Actions and Azure DevOps, enabling smooth deployment across multiple environments.
- Architected and provisioned scalable Azure cloud infrastructure using Terraform, ensuring high availability and robust support for diverse application teams.
- Developed and maintained specialized deployment pipelines for enterprise data platforms, streamlining operations for Azure Synapse Analytics and Databricks.
- Orchestrated and deployed microservices-architected applications on Kubernetes utilizing Helm charts.
- Engineered robust Kubernetes traffic routing, demonstrating deep expertise in deploying and administering both NGINX and Traefik ingress controllers.
- Spearheaded the modernization of cluster traffic management by migrating from legacy NGINX Ingress to Traefik, fully adopting the Kubernetes Gateway API.
- Administered and troubleshooted diverse operating system environments, providing comprehensive support for Windows Server and Linux distributions (Ubuntu, CentOS, RHEL).
- Automated routine administrative and BAU workflows by authoring Bash and PowerShell scripts, reducing manual operational overhead.
- Drove cloud cost optimization initiatives by right-sizing Azure resources and services, balancing strict performance requirements with business efficiency goals.

- Managed Azure Firewall rules and network security configurations to adhere to strict internal and client-specific compliance requirements.
- Executed centralized server patching and compliance enforcement across Windows and Linux environments utilizing Azure Update Manager.

APRIL 2022 – OCTOBER 2024

Cloud Engineer | Tata Consultancy Services | Noida, UP

- Deployed multi-cloud infrastructure across Azure and AWS using Terraform.
- Managed Kubernetes clusters for containerized applications.
- Administered Windows and Linux server environments.
- Handled GitHub repository administration, and CI/CD with GitHub Actions.

FEBRUARY 2020 – APRIL 2022

Analyst | HCL Technologies Ltd. | Noida, UP

- Configured and supported Azure cloud infrastructure, managing role-based access controls and ensuring system reliability.
- Deployed and maintained highly available virtualized infrastructure using VMware vSphere, optimizing resource allocation and VM lifecycles.
- Administered and secured Linux and Windows Server environments, handling user identities via Active Directory and maintaining overall server health.
